

UC Master Gardeners of Santa Barbara County present:

FREE, Monthly **Garden Talks** with UC Master Gardeners

Master Gardener Ken Falstrom will present a research-based talk on how to successfully prune fruit trees. January is one of the times of the year when many types of fruit trees benefit from pruning. Removing just the right amount of growth from a tree can improve the tree aesthetically, enhance future growth, and promote increased fruit production. Join us to learn the right techniques.
